## Bryant Earns Your Trust

Since 1904, Bryant® has earned the trust of U.S. homeowners by doing whatever it takes to deliver products of superior quality and performance. Thanks to the commitment and dedication of our development and manufacturing teams, American families have learned to rely on Bryant for reliable indoor comfort solutions. Today, with environmental awareness and energy costs on the rise, Bryant offers an excellent fit for concerned homeowners: the Model 226A Two-Stage Heat Pump with Puron® refrigerant.

The Bryant Model 226A provides worry-free comfort that won't deplete the Earth's ozone layer. It delivers savings on your energy bills with up to 16 SEER cooling efficiency and up to 8.5 HSPF heating efficiency. And it does it

all as quietly as the refrigerator in your kitchen. Designed, built and backed by the most trusted name in the business, and installed by your trusted and professional Bryant dealer, the Model 226A Two-Stage Heat Pump with Puron refrigerant provides comfort you can enjoy season after season.

## Let Uncle Sam Pay You Back

The Bryant Model 226A delivers superior comfort and meets the high energy efficiency needed to qualify for U.S. Government tax credit dollars. Tax credits are like money in the bank because they are subtracted directly from the taxes you owe. Ask your dealer for details on how much you can save with this model. In addition, when you replace an older 8-10 SEER heat pump with the Model 226A, you'll continue to save every time you pay your cooling bill for many years to come.

In addition, Bryant's Model 226A delivers the peace of mind that comes with choosing a system developed by a company known for its commitment to customer satisfaction. From initial design through product testing and an assembly process that includes our 5-step, 100% run test, we go beyond the industry's expectations for quality and reliability to be sure that every unit we make measures up to even tougher standards – yours.

# Comfort and Efficiency

## Warranty

To the original owner, the Bryant Model 226A Two-Stage Heat Pump is covered by a 10-year parts limited warranty upon timely registration of your new equipment.\* Ask your Bryant dealer about optional extended warranties, which may include labor.

\* Warranty period is 5 years if not registered within 90 days. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts warranty. See warranty certificate at [bryant.com](http://bryant.com) for complete details.

## Performance

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit [www.energystar.gov](http://www.energystar.gov).

## Get Comfortable with Environmentally Sound Operation

With the Model 226A, you join the growing ranks of homeowners who choose environmentally sound Puron® refrigerant. It's an important consideration because Freon®-22\*, the refrigerant most commonly used in evaporator coils, is gradually being phased out of existence due to concern over the Earth's

ozone layer. As supplies dwindle, costs to service heat pumps using Freon®-22\* could rise. By choosing the Model 226A with Puron refrigerant now, you are helping preserve the ozone layer while protecting yourself from potentially expensive service costs down the road.

***The Thermidistat™ Control is much more than just a thermostat. It is your single source of precision temperature, humidity and indoor air quality.***

## Perfect Your Comfort with Perfect Humidity™

The Model 226A is your trusted source for comfort all year long. For enhanced control over temperature AND humidity, add a variable speed fan coil and our Thermidistat™ Control. This system will give you full, seven-day-a-week

programmability and our comfort enhancing Perfect Humidity™ function. Perfect Humidity elevates your comfort by providing up to 30 times the humidity control of standard heat pump systems.

\*The registered owner of Freon is E. I. Dupont de Nemour & Co.

## Home Comfort Components

### PURON® REFRIGERANT

Bryant's environmentally sound refrigerant keeps you cool without depleting the Earth's ozone layer.

#### 1 ENVIRONMENTALLY SOUND, EXTRA-EFFICIENT

Our two-stage scroll compressor is designed for use with Puron refrigerant to provide quiet, smooth-operating comfort and years of environmentally sound, trouble-free performance.

#### 2 RELIABLE PERFORMANCE

Bryant's Microtube Technology™ refrigeration system with copper tube/aluminum fin coil maximizes transfer of heat outside your home to ensure cooling efficiency. Coil materials and design minimize chances for rust and corrosion for lasting performance.

#### 3 QUIET OPERATION

Smooth-running two-stage scroll compressor features naturally quiet operation that is further reduced with our compressor sound hood.

#### 4 LASTING COMFORT

Pressure switches and the filter drier protect the unit's most important single component: the compressor.

#### 5 BUILT TO LAST

Bryant's DuraGuard™ protection package ensures lasting durability and good looks through years of exposure to weather, sports and lawn equipment and more. Three key elements to this package include: galvanized steel cabinet, baked-on powder paint and steel louvered coil guard.
