

Two-Stage Heat Pump with Puron® Refrigerant

MODEL 266A

Preferred[™]
SERIES

The Preferred Choice for Year

America's Choice Since 1904

Since 1904, Bryant® has built a tradition of comfort by doing whatever it takes to deliver products of superior quality and performance. Thanks to the commitment and dedication of our development and manufacturing teams, homeowners nationwide have learned to rely on Bryant for innovative and reliable indoor comfort solutions. Today, with energy costs and environmental awareness on the rise, Bryant offers a solution that provides relief on both counts: the Model 266A Two-Stage Heat Pump with Puron® refrigerant.

The Bryant Model 266A provides worry-free comfort that won't deplete the Earth's ozone layer. It delivers savings on your energy bills with up to 16 SEER cooling efficiency and 8.5 HSPF heating efficiency. And it can pay you back with U.S. Government tax credits. Designed, built and backed by the most

trusted name in the business, and installed by your trusted and professional Bryant dealer, the Model 266A Two-Stage Heat Pump with Puron refrigerant provides comfort and savings you can enjoy season after season.

Let Uncle Sam Pay You Back

The Bryant Model 266A delivers superior comfort and meets the high energy efficiency needed to qualify for U.S. Government tax credit dollars. Tax credits are like money in the bank because they are subtracted directly from the taxes you owe. Ask your dealer for details on how much you can save with this model. In addition, when you replace an older 8-10 SEER heat pump with the Model 266A, you'll continue to save every time you pay your cooling bill for many years to come.

In addition, Bryant's Model 266A delivers the peace of mind that comes with choosing a system developed by a company known for its commitment to customer satisfaction. From initial design through product testing and an assembly process that includes our 5-step, 100% run test, we go beyond the industry's expectations for quality and reliability to be sure that every unit we make measures up to even tougher standards – yours.

Year-round Comfort & High Efficiency Savings

Limited Warranty

To the original owner, the Bryant Model 266A Two-Stage Heat Pump is covered by a 10-year parts limited warranty upon timely registration of your new equipment.* Ask your Bryant dealer about optional extended warranties which may include labor.

*Warranty period is 5 years if not registered within 90 days. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year warranty. See warranty certificate at bryant.com for complete details.

Performance

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.

Feeling Good About Feeling Comfortable

With the Model 266A, you join the growing ranks of homeowners who choose environmentally sound Puron® refrigerant. It's an important consideration because Freon*-22, the refrigerant most commonly used in air conditioner and heat pump systems, is gradually being phased out of existence due to concern over the Earth's ozone layer. As supplies dwindle, costs to service systems using Freon-22 could rise. By choosing the Model 266A Two-Stage Heat Pump with Puron refrigerant now, you are helping preserve the ozone layer while protecting yourself from potentially expensive service costs down the road.

In addition, the Model 266A beats the heat with an attractive, durable cabinet on the outside and rugged components on the inside. The DuraGuard™ protection package with baked-on powder paint and our patented DuraFlow™ louvered coil guard not only looks great, but protects the coil from damage from rocks, sticks, sports and lawn equipment and more. Inside, copper and aluminum components and protective features ensure solid performance season after season.

Elevate Your Comfort with Evolution

The Model 266A is your trusted source for comfort all year long. For enhanced control over temperature, humidity, air quality, fan speed and ventilation, add a variable speed furnace or fan coil and our Evolution™ Control to create a Bryant Evolution System. As a part of this remarkable system, Perfect Humidity™ improves your comfort by providing up to 30 times the humidity control of standard heat pump systems. When you also include multi-stage electric heating elements, you create a Perfect Heat™ system for extra consistent heating and up to 20 degrees warmer air in the heating mode.

The optional Evolution™ Control is much more than just a thermostat. It is your single source of precision temperature, humidity and indoor air quality.

*The registered owner of Freon is E. I. Dupont de Nemour & Co.

Home Comfort Components

PURON® REFRIGERANT

Bryant's environmentally sound refrigerant keeps you comfortable without depleting the Earth's ozone layer.

1 ENVIRONMENTALLY SOUND, EXTRA-EFFICIENT

Our two-stage scroll compressor is designed for use with Puron refrigerant to provide quiet, smooth-operating comfort and years of environmentally sound, trouble-free performance.

2 PRECISION COMFORT CONTROL

Our electronic control board allows for precise control of two-stage cooling and works with the Evolution™ Control for the ultimate in comfort control. "Intelligent" circuitry monitors cooling and heating operation and automatically adjusts system settings to maximize comfort and efficiency.

3 RELIABLE PERFORMANCE

Bryant's Microtube Technology™ refrigeration system with copper tube/aluminum fin coil maximizes transfer of heat outside your home to ensure cooling efficiency. Coil materials and design minimize chances for rust and corrosion for lasting performance.

4 LASTING COMFORT

High and low pressure switches and the filter drier protect the unit's most important single component: the compressor.

5 BUILT TO LAST

Bryant's DuraGuard™ protection package ensures lasting durability and good looks through years of exposure to weather, sports and lawn equipment and more. Three key elements to this package include:

- a. Galvanized steel cabinet
- b. Louvered coil guard
- c. Baked-on powder paint
